(c) The Auditors in their Audit Report on the standalone unaudited financial statement for the quarter ended 31 December, 2019 have brought out that: The Company has a non-current investment of Rs. 1,512.13 crores (net of impairment provision) and inter corporate deposits (classified under current assets) of Rs. 25 crores recoverable from Sinar Thermal Power Limited (formerly RattanIndia Power Limited) (STPL), a wholly-owned subsidiary of the Company, as at 31 December 2019. The subsidiary company has incurred losses since its inception and is yet to commence operations. The accumulated losses in the subsidiary company amount to Rs. 4,993.29 crores as at 31 December 2019, and the management of the subsidiary company had determined that a material uncertainty exists as at 31 December 2019, this may cast significant doubt about the subsidiary company's ability to continue as a going concern. In the absence of evidence for such impairment assessment performed by the management, we are unable to obtain sufficient appropriate evidence to comment on any adjustment that may further be required to be made to the balance carrying value of the above mentioned non-current investment of Rs. 1,512.13 crores and inter corporate deposits of Rs. 25 crores as at 31 December 2019 and the consequential impact thereof on the accompanying standalone financial results.
